SECTION 4: FIRST AID MEASURES

INHALATION: Densi-Proof + Reo Protect is applied using an atomizing spray apparatus. Densi-Proof + Reo Protect application on an outdoor installation normally requires no special ventilation or breathing equipment. Normally utilized ventilation is usually adequate indoors unless the area being treated is very closed in. In that case, extra mechanical ventilation may be required to facilitate more comfortable breathing. PROTECT CRETE's spray mist is not health hazardous to breathe, however, a face mask should be worn when spraying set concrete surfaces due to potentially disturbing sharp alkaline cement dust or other particles subject to becoming airborne.
EYES: Flush liberally with fresh water, lifting upper and lower eyelids occasionally. Seek medical attention if redness persists.
SKIN: Liberally flush with water, then wash area with soap and water.
INTERNAL: Drink at least two (2) glasses of water followed by citrus juice. Seek medical attention if nausea/vomiting develops.
