

RP2460 Dustmaster Vacuum Extractor

FOR HEAVY-DUTY INDUSTRIAL CLEANING AND DUST COLLECTION

The tougher the cleaning, the better the vacuum cleaner needs to be. This is why so much thought has gone into the design of the RP2460. With 7200 litres per minute of air volume, and 3000 W of maximum power, it is capable of fast, productive cleaning of dirt, metal chips and liquid spills.

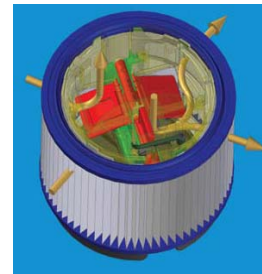

But the real edge over the competition can be seen in the practical 'drop-down' system for emptying the container, and in the special design features that make the work just that much easier. A range of 38 mm and 50 mm accessories are available and makes it possible to handle all kind of jobs.

PRODUCT FACTS

- Two motor industrial performance.
- Xtreme Clean fully automatic filter cleaning system for high efficiency also available in H Class.
- Big surface washable PET filter cartridge for high efficiency and low maintenance costs.
- Stainless steel drop-down container for perfect handling and disposal.
- 10 metre cable for a large working radius.
- Disposal bag optional.

SPECIFICATIONS	RP 2460 Dustmaster
IP Protection Class	IPX4
Air Flow Rate (L/M)	2 x 3600
Vacuum (Mbar/Kpa)	230/ 23
Power PMAX	2 x 1500 watt
Power PIEC	2 x 1200 watt
Working Sound Level	67 DB
Container Volume	50 litres
Main Filter Type	PET
Power Requirements	230v, 1ph, 16a
Dimensions	615L x 690W x 990H
Weight	45 kgs
Cable Length	10 m
